Thank you for visiting ANGFA Victoria. We are a not for profit, non government group of native fish enthusiasts working toward promoting a better understanding and conservation of native fishes in Australia and New Guinea. Aquarium keeping helps with the understanding part of working with native fishes.

Our members breed and distribute the largest collection of rainbowfish in Victoria. It's a great opportunity to learn everything there is to know about native fish, create your own stunning display and have fun as part of a very social group.

Members of Angfa Victoria gain additional access to content on this website. If you believe you are a member and having problems logging in please contact us.
